Dr. Harold C. Hodge  
University of Rochester  
260 Crittenden Blvd.  
Rochester 7, N. Y.

Dear Harold:

Since you did not have a copy of the work performed by FDA on Cellulube 220 and Pydraul 150, I am enclosing a copy of results given to me by Dr. Frawley. I presume these results should be somewhat confidential for the time being, although Dr. Frawley doesn't consider the materials as being particularly toxic.

I hope by the time you get this you will have had an enriched trip abroad.

Sincerely yours,

JFT:rb  
enc.  
cc: Elmer Wheeler
