THE AMERICAN ACADEMY
OF INDUSTRIAL HYGIENE

1962

American Board of Industrial Hygiene, Incorporated
Henry F. Smyth, Jr., Ph.D., *Secretary-Treasurer*
4400 Fifth Avenue
Pittsburgh 13, Pennsylvania

History

In 1956 the Board of Directors of the American Industrial Hygiene Association appointed an *ad hoc* Committee on Certification in the Field of Industrial Hygiene. Under the chairmanship of Lewis J. Cralley, Ph.D., this Committee reported to the Board on October 10, 1957, recommending that the Association endorse and initiate the establishment of a voluntary certification program for qualified industrial hygienists.

In November 1957 the Board of Directors appointed an *ad hoc* Committee on Certification Standards, under the chairmanship of Henry F. Smyth, Jr., Ph.D. In February 1958 this Committee recommended to the Executive Committee of the Association that the American Conference of Governmental Industrial Hygienists should be invited to join with the Association in initiating a certification program, and should be invited to delegate six members to join with the *ad hoc* Committee in planning. Early in 1958 these ACGIH delegates were named, and the resulting Joint Committee on Certification Standards with thirteen members held its first meeting in April 1958, under the chairmanship of Henry F. Smyth, Jr., Ph.D.

In March 1959 the Joint Committee recommended to the two Associations that voluntary certification should be conducted by an independent incorporated Board, that the two Associations should sponsor the Board and advance monies for its initial expenses, that the Joint Committee should be discharged, and that each Association should delegate six of its members to join in organizing the independent Board. During the summer of 1959 the memberships of the two Associations approved the principle of voluntary certification, the outline of plans and proposed qualifications for certification which had been prepared by the Joint Committee, and the advance of money for initial expenses. Each organization thereupon delegated six of its members to join in organizing the Board.

The twelve delegates held their initial meeting in Rochester, New York on April 24, 1960. A petition for a charter as a non-profit corporation under the laws of the Commonwealth of Pennsylvania was approved by the Court of Common Pleas of Allegheny County September 12, 1960, and certified by the Prothonotary of that County September 26, 1960. The American Board of Industrial Hygiene held its first annual meeting in Pittsburgh on October 28, 1960.

All persons certified by the American Board of Industrial Hygiene become members of the American Academy of Industrial Hygiene. They remain members in good standing so long as they pay the annual dues assessed by the Board. Those who have retired from professional activity will remain members in good standing without the payment of annual dues.
