Dr. John P. Frawley
Chief Toxicologist
Medical Department
Hercules Incorporated
910 Market Street
Wilmington, Delaware 19899

Dear Dr. Frawley:

I am enclosing Dr. Knapp's letter of June 9 which gives some data relative to indirect food additives in reply to our request for this which went out to the MCA Food, Drug, and Cosmetic Chemicals Committee. Having been away for much of the time, I am just now catching up with this item.

At the June 13 FDCCC meeting, I was requested to ascertain from you what data you now have so that the committee can decide about its recommendation regarding your proposal.

Please advise, and thank you.

Sincerely yours,

Morgan M. Hoover
